

Step Lite Square

Cat. No. SLSQ
 Cat. No. SLFLSQ
 Cat. No. SLSQGU

Step Lite is designed with a 88mm x 88mm (3½" x 3½") flange for flush mounting into masonry, stone or wood. This luminaire is ideal for illumination of steps and ground level horizontal lighting, for example, across driveways or exterior paved areas. When a canister is used there are no mounting holes in the flange.

A 110/240 volt fluorescent option is available which offers excellent light output, low energy usage and very low heat generation, this changes the luminaire to an IP66 rating.

A GU10 version of this luminaire is also available for line voltage lamps. However, a longer luminaire body is needed to accommodate the longer lamp.
